## What Is the Plan's Formulary?

A formulary is a list of covered drugs selected by us in consultation with a team of health care providers, which represents the prescription therapies believed to be a necessary part of a quality treatment program.

Your plan will generally cover the drugs listed in our formulary as long as the drug is medically necessary, the prescription is filled at a network pharmacy, and other plan rules are followed.

*For more information on how to fill your prescriptions, please review your Evidence of Coverage.*

## Can the Formulary Change?

Generally, if you are taking a drug on our 2008 formulary that was covered at the beginning of the year, we will not discontinue or reduce coverage of the drug during the 2008 coverage year, except when a new, less expensive generic drug becomes available or when new adverse information about the safety or effectiveness of a drug is released.

Other types of formulary changes, such as removing a drug from our formulary, will not affect members who are currently taking the drug. It will remain available at the same cost-sharing for those members taking it for the remainder of the coverage year.

We feel it is important that you have continued access for the remainder of the coverage year to the formulary drugs that were available when you chose our plan, except for cases in which you can save additional money or improve the safety of your drugs.

If we remove drugs from our formulary, add prior authorization, quantity limits and/or step therapy restrictions on a drug or move a drug to a higher cost-sharing tier, we must notify affected members of the change at least 60 days before the change becomes effective, or at the time the member requests a refill of the drug, at which time the member will receive a 60-day supply of the drug.

If the Food and Drug Administration deems a drug on our formulary to be unsafe or the drug's manufacturer removes the drug from the market, we will immediately remove the drug from our formulary and provide notice to members who take the drug.

The enclosed formulary is current as of **January 1, 2008**. To get updated information about the drugs covered by your plan, please visit our Web site at [www.bluecrossca.com](http://www.bluecrossca.com) or call Customer Service at 1-877-811-3107, from 8 a.m. to 8 p.m., 7 days a week. TTY/TDD users should call 1-888-877-5378.

## How Do I Use the Formulary?

There are two ways to find your drug within the formulary:

**Medical Condition:** The formulary begins on page 1. The drugs in this formulary are grouped into categories depending on the type of medical conditions they are used to treat. For example, drugs used to treat a heart condition are listed under the category "Cardiovascular Agents."

If you know what your drug is used for, look for the category name in the list that begins on page 1. Then look under the category name for your drug.

**Alphabetical Listing:** If you are not sure what category to look under, you should look for your drug in the Index that begins on page 37. The Index provides an alphabetical list of all of the drugs included in this document. Both brand-name drugs and generic drugs are listed in the Index.

Look in the Index and find your drug. Next to your drug, you will see the page number where you can find coverage information. Turn to the page listed in the Index and find the name of your drug in the first column of the list.

## What Are Generic Drugs?

Your plan covers both brand-name drugs and generic drugs. A generic drug has the same active ingredient as the brand-name drug. Generic drugs usually cost less than brand-name drugs and are approved by the Food and Drug Administration (FDA).

## Are There Any Restrictions on My Coverage?

Some covered drugs may have additional requirements or limits on coverage. These requirements and limits may include:

- **Prior Authorization:** Your plan requires you to get prior authorization for certain drugs. This means that you will need to get approval from us before you fill your prescriptions. **If you don't get approval, your plan may not cover the drug.**
- **Quantity Limits:** For certain drugs, we limit the amount of the drug that we will cover. For example, we provide 4 tablets (35mg) or 30 tablets (5mg or 30mg) per prescription for Actonel. This may be in addition to a standard one-month or three-month supply.

You can find out if your drug has any additional requirements or limits by looking in the formulary that begins on page 1.

You can ask your plan to make an exception to these restrictions or limits. *See the section, "How Do I Request an Exception to the Plan's Formulary?" for information about how to request an exception.*

## What If My Drug Is Not on the Formulary?

If your drug is not included in this formulary, you should first contact Customer Service and ask if your drug is covered.

If you learn that your plan does not cover your drug, you have two options:

- You can ask Customer Service for a list of similar drugs that are covered by your plan. When you receive the list, show it to your doctor and ask him or her to prescribe a similar drug that is covered by your plan.
- You can ask your plan to make an exception and cover your drug. *See the following section for information about how to request an exception.*

**Note:** Due to a change in Medicare, most Medicare Drug Plans no longer cover erectile dysfunction (ED) drugs like Viagra, Cialis, Levitra and Caverject. For more information, you can contact Customer Service at 1-877-811-3107, from 8 a.m. to 8 p.m., 7 days a week. TTY/TDD users should call 1-888-877-5378.

## How Do I Request an Exception to the Plan's Formulary?

You can ask your plan to make an exception to our coverage rules. There are several types of exceptions that you can ask us to make:

- You can ask us to cover your drug even if it is not on our formulary.
- You can ask us to waive coverage restrictions or limits on your drug. For example, for certain drugs, we limit the amount of the drug that we will cover. If your drug has a quantity limit, you can ask us to waive the limit and cover more.

- You can ask us to provide a higher level of coverage for your drug. If your drug is contained in our Non-Preferred Brand Drug tier, you can ask us to cover it at the cost-sharing amount that applies to drugs in the Preferred Brand Drug tier instead. This would lower the amount you must pay for your drug.

**Please note:** If we grant your request to cover a drug that is not on our formulary, you may not ask us to provide a higher level of coverage for the drug. Also, you may not ask us to provide a higher level of coverage for drugs that are in the Specialty tier.

Generally, your plan will only approve your request for an exception if the alternative drugs included on the plan's formulary, the lower-tiered drug or additional utilization restrictions would not be as effective in treating your condition and/or would cause you to have adverse medical effects.

You should contact us to ask us for an *initial coverage decision* for a formulary, tiering or utilization restriction exception.

When you are requesting a formulary, tiering or utilization restriction exception, you should submit a statement from your physician supporting your request.

Generally, we must make our decision within 72 hours of getting your prescribing physician's supporting statement.

You can request an *expedited (fast) exception* if you or your doctor believe that your health could be seriously harmed by waiting up to 72 hours for a decision.

If your request to expedite is granted, we must give you a decision no later than 24 hours after we get your prescribing physician's supporting statement.

## What Do I Do Before I Can Talk to My Doctor About Changing My Drugs or Requesting an Exception?

As a new or continuing member in our plan, you may be taking drugs that are not on our formulary. Or, you may be taking a drug that is on our formulary but your ability to get it is limited. For example, you may need a prior authorization from us before you can fill your prescription.

You should talk to your doctor to decide if you should switch to an appropriate drug that we cover, or request a formulary exception so that we will cover the drug you take. While you talk to your doctor to determine the right course of action for you, we may cover your drug in certain cases during the first 90 days you are a member of our plan.

For each of your drugs not on our formulary or if your ability to get your drugs is limited, we will cover:

- a temporary 30-day supply (unless you have a prescription written for fewer days) when you go to a network retail pharmacy or;
- a temporary 90-day supply if you use a network mail-service pharmacy or network retail pharmacy that has contracted with us to fill a 90-day supply of prescriptions.

*After your initial supply, we will not pay for these drugs, even if you have been a member of the plan less than 90 days.*

If you are a resident of a long-term care facility, we will cover a temporary 34-day transition supply (unless you have a prescription written for fewer days). We will cover more than one refill of these drugs for the first 90 days you are a member of our plan.

If you need a drug that is not on our formulary or your ability to get your drugs is limited, but you are past the first 90 days of membership in our plan, we will cover a 34-day emergency supply of that drug (unless you have a prescription for fewer days) while you pursue a formulary exception.

## For More Information

For more detailed information about your plan's prescription drug coverage, please review your Evidence of Coverage and other plan materials.

If you have questions about your plan, please call Customer Service at 1-877-811-3107, from 8 a.m. to 8 p.m., 7 days a week. TTY/TDD users should call 1-888-877-5378. Or visit [www.bluecrossca.com](http://www.bluecrossca.com).

If you have general questions about Medicare prescription drug coverage, please call Medicare at 1-800-MEDICARE (1-800-633-4227) 24 hours a day, 7 days a week. TTY/TDD users should call 1-877-486-2048. Or, visit [www.medicare.gov](http://www.medicare.gov).

## Your Plan's Formulary

The formulary that begins on page 1 provides coverage information about some of the drugs covered by your plan. If you have trouble finding your drug in the list, turn to the Index that begins on page 37.

The **first column** of the chart lists the drug name. Brand-name drugs are capitalized (e.g. PREVACID) and generic drugs are listed in lowercase italics (e.g. *digoxin*).

The **second column** of the chart identifies the coverage level or tier placement of each medication. Your plan has a tiered formulary, which means that for most covered drugs you buy at network pharmacies, you pay your lowest copayment for Generic Drugs, your middle copayment for Preferred Brand Drugs and your highest copayment for Non-Preferred Brand Drugs.

The **third column** tells you if your plan has any special requirements for coverage of your drug. For example:

**QL – Quantity Limits:** restricts the amount of medication for which you can obtain benefits during a specific period of time (most often set on a monthly basis)

**PA – Prior Authorization:** the process of obtaining approval before benefits for certain prescriptions may be approved

If you believe you should receive an exception to these requirements, please ask your pharmacist to contact us at 1-866-841-8953. If more information is needed, we may contact your physician and engage your health plan.

**Please refer to your Summary of Benefits for the dollar copayment amounts and coinsurance percentages you will pay for your prescription drugs, based on the drug tier.**

# Covered Medications by Therapeutic Category

## Legend

Generic drugs are shown in lowercase italics (e.g. *digoxin*)

Brand-name drugs are shown in capital letters (e.g. PREVACID)

QL = Drugs with Quantity Limits

PA = Drugs requiring Prior Authorization

Please see page iv for a detailed description of this legend.

# Barbiturates and Benzodiazepines

## Legend

Generic drugs are shown in lowercase italics (e.g. *digoxin*)

Brand-name drugs are shown in capital letters (e.g. PREVACID)

QL = Drugs with Quantity Limits

PA = Drugs requiring Prior Authorization

Please see page iv for a detailed description of this legend.

These prescription drugs are not normally covered in a Medicare Prescription Drug Plan. The amount you pay when you fill a prescription for these drugs does not count toward your total drug costs (that is, the amount you pay does not help you qualify for catastrophic coverage). In addition, if you are receiving extra help to pay for your prescriptions, you will not get any extra help to pay for these drugs.

<b>Drug Name</b>	<b>Drug Tier</b>	<b>Notes</b>	<b>Drug Name</b>	<b>Drug Tier</b>	<b>Notes</b>
<i>alprazolam</i>	1		<i>lorazepam</i>	1
